

Kylian ADAM

Status : DevCloud Journey,

FORMATION

Engineering school ENSISA part of the University of Haute-Alsace, MULHOUSE

2025-now

Currently in my first year of a three-year engineering program (level 7) in Computer Science & Networks.

University Institute of Technology of the University of Haute-Alsace, COLMAR

2023-now

Also in the final year of the BUT program (3 year, level 6) in Networks & Telecommunications.

Jean-Mermoz High School, SAINT-LOUIS

2021-2023

11th and 12th grades, in STI2D, specializing in Information Systems and Digital Technology.

Albert Schweitzer High School, MULHOUSE

2020-2021

High school sophomore, in the science track class for academic excellence.

PARCOURS PROFESSIONNEL

Collectivité européenne d'Alsace Intern

February 17, 2025 – March 11, 2025

An 8-week mission to implement address spoofing and storm protection on a set of access switches in the broadcast domain.

Bâle-Mulhouse Airport Trainee

September 02, 2024 – December 02, 2024

First four weeks of work-study program at a company, where I learned about professional relationships between coworkers. I also worked on a project for an access management service, installing and upgrading network equipment.

Bâle-Mulhouse Airport Seasonal

July 08, 2024 – August 30, 2024

Two months during the summer as a mechatronics technician, where I worked on airport closure systems, edited databases, and communicated with customers. Reorganizing inventory allowed me to improve my technical and time management skills.

Bâle-Mulhouse Airport Intern

February 03, 2020 – February 07, 2020

A 9th grade internship at EuroAirport, to discover different professions but also to develop a hard-working and committed attitude.
